

POCKET SUTURE™ MICROSURGICAL TRAINER™

Have a phone? Train Anywhere.

Our **Pocket Microvascular Anastomosis Card™** is great. Combine it with our portable training system and it's unbeatable. The **Microsurgical Trainer™** allows you to use the camera on your smart phone or tablet to practice microsurgery anywhere you go. With a zoom capacity of 1x to 12.5x on most modern devices, it's easy to visualize the most common microsurgical tasks.

It's lightweight and folds down flat to fit easily in your backpack or satchel of choice.

So set down the loupes and step away from the scope. Give the Microsurgical Trainer a try today!

Practice precision, anywhere™

FLEXIBLE — NO MATTER YOUR RESOURCES

Use with
surgical scopes

Your favorite
loupes

Or use your
phone with
our **Pocket
Microsurgical
Trainer™**

Simple. Portable. Effective.

The Pocket Microvascular Anastomosis Card™ is a convenient way to practice the microvascular anastomoses common to multiple specialties.

Each card contains synthetic vessels ranging in size from 0.7 to 4.0mm. We offer a wide variety of layouts, or you can mix and match vessel sizes and layouts in order to meet the needs of your training program!

A CONVENIENT APPROACH TO MICROVASCULAR TRAINING

The Pocket Microvascular Anastomosis Card™ is the size of a standard credit card, making it easy to pack with you and use under surgical, or standard dissection microscopes. No Scope? No Problem! Throw on your loupes or use the Pocket Microsurgical Trainer™.

The writable matte surface of the card allows you to make notes directly on the surface, such as angle of practice, date completed, or denote challenge areas to monitor your progress or share with colleagues for feedback. A light 1mm grid background provides a convenient reference that's easy on the eyes.
